* Program name must be the approved name as listed on the Academic Inventory.

** Capacity is the number of program slots available to 1st-year students for only the fall term for which the report is submitted.

Programs without specific capacity limitations (e.g. Liberal Studies or some career programs) should indicate that capacity is "undesignated" or "undsg".

***1st year enrollment is students who have earned less than 30 credits from all sources that are recorded on their transcript;

2nd year includes students with 30 or more credits.

4. Number entering just out of high school [4]   318

(HS graduation date is January 1 or later of current academic year)

5. Faculty FTE [5] | 119

(Faculty FTE is calculated by dividing the number of credit hours in your course schedule for the Fall semester by 15; if a faculty member teaches four sections
of a three-credit course, the credit hours in your schedule is 12 no matter how many students are in the sections.)

[1] Full-time is 12 or more credit hours.

[2] FTE is calculated by dividing the total full-time and part-time student credit hours by 15.

[3] Unduplicated: each student's social security number is counted only one time during the reporting period.

[4] To be completed for Preliminary September report only.

[5] To be completed for Final October report only.

To be completed on October 15th of each year based on final Fall matriculated enrollment and electronically submitted to
the MCCS President's Office within 5 working days. The report covers final fall total enrollment in developmental courses having
course numbers of less than 100. Reported data further details course enrollment by math, reading, and writing.
