PROGRAM DESCRIPTION

The Advanced Certificate in Education for Career and Technical Educators is designed to prepare practicing teachers at CTE centers to improve and enhance their teaching practice and to integrate educational concepts, strategies and methodologies into lessons and assessments for high school students. Graduates obtaining this certificate will also satisfy the State of Maine requirement for CTE teachers to earn a conditional teaching certification to teach at a Career and Technical Education Center.

KEY LEARNING OBJECTIVES

Graduates of the CTE Option will:

- Explain the mission, history and emerging trends for Career and Technical Education.
- Use a variety of instructional strategies to plan learning experiences and activities that meet the diverse needs of all students and to encourage critical thinking and problem solving.
- Determine effective classroom management and safety practices for CTE environments.
- Integrate literacy, mathematics and other relevant subject matter into the CTE discipline/content area(s).
- Use appropriate assessment strategies to inform curricula decisions, adjust instruction and evaluate student learning outcomes.
- Reflect on teaching practices and continually seek opportunities to grow professionally.

PREREQUISITE

Advanced Certificate: Must have an associate degree or higher in any discipline.

To enroll in the Advanced Certificate for CTE, please submit an Application for Admission online at www.emcc.edu. Additionally, please have an official copy of the transcript verifying your completion of an associate degree (or higher) mailed directly to the Admissions Office from the awarding institution.
