

Liberal Studies

PROGRAM DESCRIPTION

The associate in arts degree with a concentration in Liberal Studies is a broad-based educational program with a curriculum spanning a wide range of academic areas. These areas include: humanities, communications/English, social science, mathematics, computer applications, and laboratory science.

Primarily, this degree is intended to ease transfer into some baccalaureate programs at other post-secondary institutions. Additionally, from the Liberal Studies program, students may apply for entry into various professional and technical programs offered at

Eastern Maine Community College as well as throughout the Maine Community College System.

Students are encouraged to explore in depth a particular academic discipline and also to enhance their education by electing career and skill-specific courses offered through the other programs on campus.

Upon successful completion of at least 60 credit hours in specific curriculum areas, and with a minimum grade point average of 2.0, the student will be awarded the Associate in Arts Degree in Liberal Studies.

KEY LEARNING OBJECTIVES

- Students will participate in, identify, or evaluate artistic and creative forms of expression. (CREATIVE/ARTS)
- Students will engage in laboratory or field work at a level consistent with standard college laboratory and field courses. Students will demonstrate the ability to work with both qualitative and quantitative information in applying the scientific method. (NATURAL SCIENCE)
- Students will be able to write clear, coherent texts with adherence to proper mechanics. Students will be able to effectively use writing as a means to engage and communicate processes of critical inquiry, including analysis, synthesis, and argumentation. (WRITING)
- Students will be able to reliably perform mathematical operations at the college level. Students will be able to apply mathematical concepts and techniques in practical situations, to solve problems. (QUANTITATIVE LITERACY)
- Students will analyze or interpret significant texts or other cultural artifacts and will understand or think critically about meaning and value, from either an aesthetic, philosophical, or multidisciplinary perspective. (HUMANITIES)
- Students will analyze or explain casual forces which shape social structures, institutions, or behavior. (SOCIAL SCIENCES)
- Students will explain the premises of ethical decision making and apply a framework for making rational choices when faced with ethical dilemmas. (ETHICAL REASONING)
- Students will demonstrate knowledge of cultural differences. (DIVERSITY/CULTURAL KNOWLEDGE)
