National Electrical Code 2020 Code Update Course-15 hours

***Learn the most up-to-date
standards for safe electrical
installation and inspection.***

CED E12 National Electrical Code 2020

Code Update Course-15 hours

Course Description:

This course will provide members of the electrical community with an understanding of the NEC's 2020 code updates and the necessary 15 hours of continuing education required for license renewal in the State of Maine. These updates set the standard for safe electrical installation and inspection, and protect people and property from electrical hazard. Students will leave this class with a comprehension of the updated NEC requirements, enabling them to provide safe and quality service in the field. Students are required to bring their NEC Code Book to class.

August course code: CED E12-23-BB
